A horse hitched to a buggy created quite a commotion in front of M. C. Russell & Son's business house yester day afternoon. The animal frightened at an electric car which was passing and made a break to get on the inside of Mr. Russell's house. It got as far as the door where it fell, breaking the shafts of the buggy and causing other slight damage to the vehicle. After a time every thing was cooled down, the buggy taken to an adjoining shop where it was repaired, and the owners made their way homeward.

There was an appreciative audience out at this cosy little theater last night Howard and Livingston were pleasing as ever, while the DeWitts in their turn elicit much hearty applause. Funny Lew Seeker and 'Rastus were as funny as ever. There will be a change in the program tonight, so go out and have a good time. The round trip carfare and a Terms made ko ticket to the show is only 10 cents.

The Eargest Shipment of

Chat Ever Came to Northeastern Kentucky

was received Monday, Tuesday and Wednesday, May 9th, 10th and 11th, 1898, by JOHN I. WINTER, THE PRICE FIGHTER. There was 30,000,000 (thirty million) feet in the shipment, and every foot of it is the justly famous Deering Pure Sisal. Every one wants, demands and will have no other twine after once using Deering Pure Sisal. None of us are too old to learn. If your neighbors are using a better article than you are, surely you wish to know it. The demand for Deering Pure Sisal Twine has become so great that we were compelled to this year buy 30,000,000. feet to accommodate the wants of our customers. Now, listen: Every inch of this Twine is tested at a much higher tension than any binder requires in tying; while in other makes of twine only 100 feet out of every 50,000 feet is tested. Deering Pure Sisal Twine is made of extra long (firsts) strands of Pure Sisal Fiber, which permits of very fine spinning, thus producing more bundles to the pound than any other twine in the world. To make a long story short, I offer the following: Take out a lot of Deering Pure Sisal Binder Twine, try it, and if you don't find that it will bind an acre of wheat with less pounds than any other twine made, if you don't find that it ATTTTTTTTTTTTTTTTTTTTT

THE DEERING is a safe line to hitch to. In buying a Self Binder one should study the matter carefully and select the best machine. Any make of binder will cut wheat; they all do that; but there is one machine that will cut wheat, rye, oats, barley, millet, bluegrass, timothy, etc. Standing up or laying down flat, long or short, heavy or thin, on level, rolling or billsides as steep as a roof. This machine is the Deering. Condition of grain or land makes no difference to this matchless binder. Get your money's worth and

Deering Machines have roller and ball bearings both, and in that respect is the of very fine spinning, thus producing more bundles to the pound than any other twine in the world. To make a long story short, I offer the following: Take out a lot of Deering Pure Sisal Binder Twine, try it, and if you don't find that it will bind an acre of wheat with less pounds than any other twine made, if you don't find that it is the strongest twine made, if it is not the best twine that you ever used, you will please return it and every cent of your money will be refunded. Surely, that's fair. You are to be your own judge. Say, I an save you big money on twine. I bought my twine some time since when it was telling below the cost of production. Twine has advanced ever since. I am willing to give my friends and customers the advantage of my judicious purchase. I am selling twine today 1½c. a pound less than the market of the kind made.
